FLAGSTAFF CLIMATE

PICK A SEASON AND WE HAVE YOU COVERED

Flagstaff's combination of high altitude, low humidity and diverse terrain provide mild weather conditions and clear air throughout the year. At 7,000 feet (2,134 meters) elevation, temperatures rarely exceed 90 degrees in the summer, fall brings a brilliant change of color, winter snowfall averages 108 inches and spring bursts with blossoms. Flagstaff is located in the largest contiguous Ponderosa pine forest in the world; however, ecosystems spanning piñon-juniper studded plateaus, high desert, alpine forest and barren tundra can all be found within the area.

FOUR SEASON CLIMATE

Flagstaff enjoys four distinct seasons allowing visitors to plan activities any time of year to suit their travel style and sense of adventure.

TIPS FOR COMFORT

Drink plenty of water, apply sunscreen and lip balm frequently, and rest as often as necessary. At high altitude the sun is more intense and you may experience fatigue and shortness of breath. No matter what time of year you visit, layering and comfortable clothes are a must in northern Arizona.
