### Tips for Comfort

1.) At high altitude the sun is more intense and it is possible to experience fatigue and shortness of breath. Drink plenty of water, rest often and wear sunglasses and a hat. 2.) Spending time outdoors at 7,000 feet can lead to sunburn on cool and cloudy days as quickly as on warm and sunny ones. Remember to apply sunscreen before you venture out. 3.) Make layered clothing a key factor when packing. Be prepared for possible (and sudden) changing weather including snowfall in the winter months.
